

# S-LINE® PRE-INSULATED TUBING

**S-LINE is suggested for TraceBOOST steam supply and condensate return lines.**

*It provides personnel protection and conserves energy. S-LINE is an inexpensive alternative to field insulation and weatherproofing of small diameter lines.*

- 1. Save time and labor when installing steam supply and condensate return lines
- 2. Reduce fittings with long coils

- 3. Eliminate leak paths from screwed and compression fittings associated with stick tubing
- 4. Easy installation

### Product Features

- Personnel protection
- Weatherproofing
- Energy conservation

### Jacket

- SV47 PVC
- UV resistant

### Insulation

- Fibrous Glass
- Water soluble chloride < 30 ppm
- Non-hygroscopic

### Model Number

- SA4 1/2" x 0.035 wall welded 316SS
- SE4 1/2" x 0.049 wall welded 316SS
- SF4 1/2" x 0.035 wall seamless 316SS
- SB4 1/2" x 0.049 wall seamless 316SS
- SD4 1/2" x 0.035 wall copper
- SM4 1/2" x 0.049 wall copper

### Accessories:

- TPKHS-E1 Heat shrink end seal

*Other Materials & Sizes, Steam & Electric Heated Bundles Available*
