

Heat-shrink connection kit

This connection kit is designed for terminating all Raychem BTV, QTVR, XTV, KTV and VPL industrial parallel heating cables to a junction box, whilst maintaining electrical insulation of the heating cable conductors and core.

The sealing of the heating cable core is provided by Raychem heat-shrinkable sleeves. Two grommets supplied in this kits enable the gland to maintain optimum sealing under various ambient conditions.

An additional locknut is provided for unthreaded entries.
