

# E5MB SUNSHADE® GRP INSTRUMENT SHIELD

The E5MB fiberglass reinforced polyester sunshade protects instrument electronic from radiant solar temperature gain as well as providing limited protection from blowing dust and rain.

**E5MB SUNSHADE®  
MOUNTED ON  
SADDLEPAK® STAND**

## Options

- PT** 50mm x 150mm white phenolic tag with 12mm black lettering
- SST** 50mm x 95mm stainless steel tag with 3mm embossed lettering

When many sunshades are used on a project optional tags can be supplied loose to avoid the logistical problems of matching a specific sunshade to its corresponding instrument. By supplying the tags loose sunshades can be distributed and installed without regard to instrument tag numbers then the tag can be matched to the instrument and installed.

Specifications subject to change without notice.

ISO 9001:2000  
REGISTERED
